

Our Tug-of-War with COVID

IN MARCH 2020, COVID
CAME TO THE US. MANY GOT
SICK. MANY EVENTUALLY DIED.

BUT MOST FOUGHT HARD, PULLING
AGAINST THE VIRUS. FOR MONTHS, WE
WORE OUR MASKS AND LAID LOW.

VACCINES TO THE RESCUE!

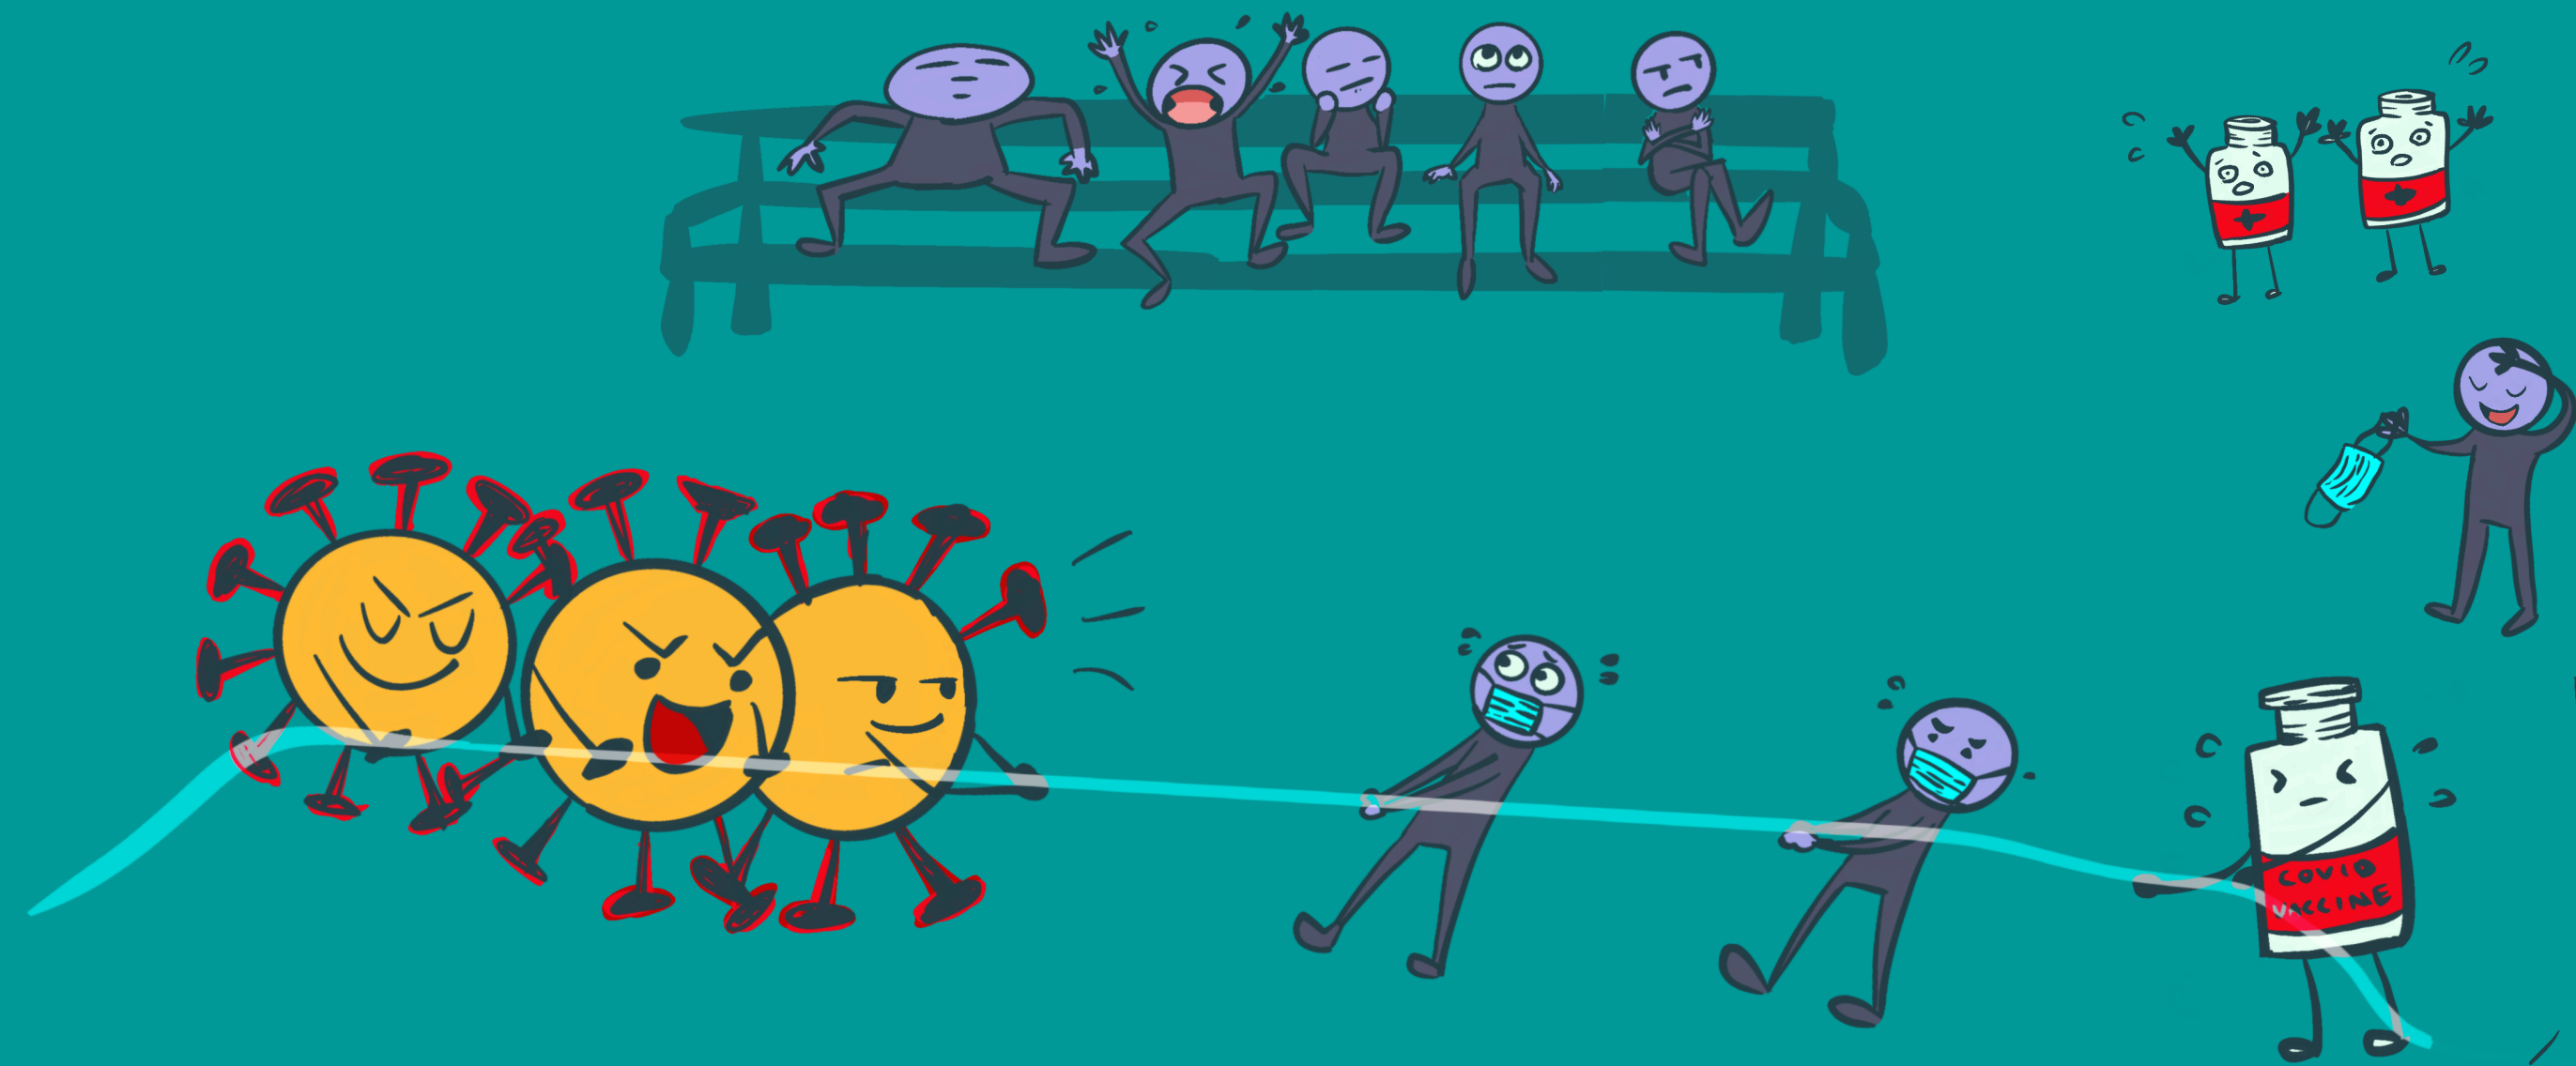

IN DECEMBER 2020, THE FDA AUTHORIZED THE PFIZER & MODERNA VACCINES. AND THEN IN MARCH 2021, THE FDA AUTHORIZED THE JOHNSON & JOHNSON VACCINE. ALL THESE VACCINES ARE SAFE AND EFFECTIVE, PREVENTING 100% OF HOSPITALIZATIONS AND DEATHS IN CLINICAL TRIALS.

IT'S BEEN A LONG, HARD YEAR.

WE'RE TIRED.
AND SO WITH REINFORCEMENTS ON
THE WAY, SOME OF US ARE LETTING
OUR GUARD DOWN.

BUT MOST OF US ARE
STILL PULLING.

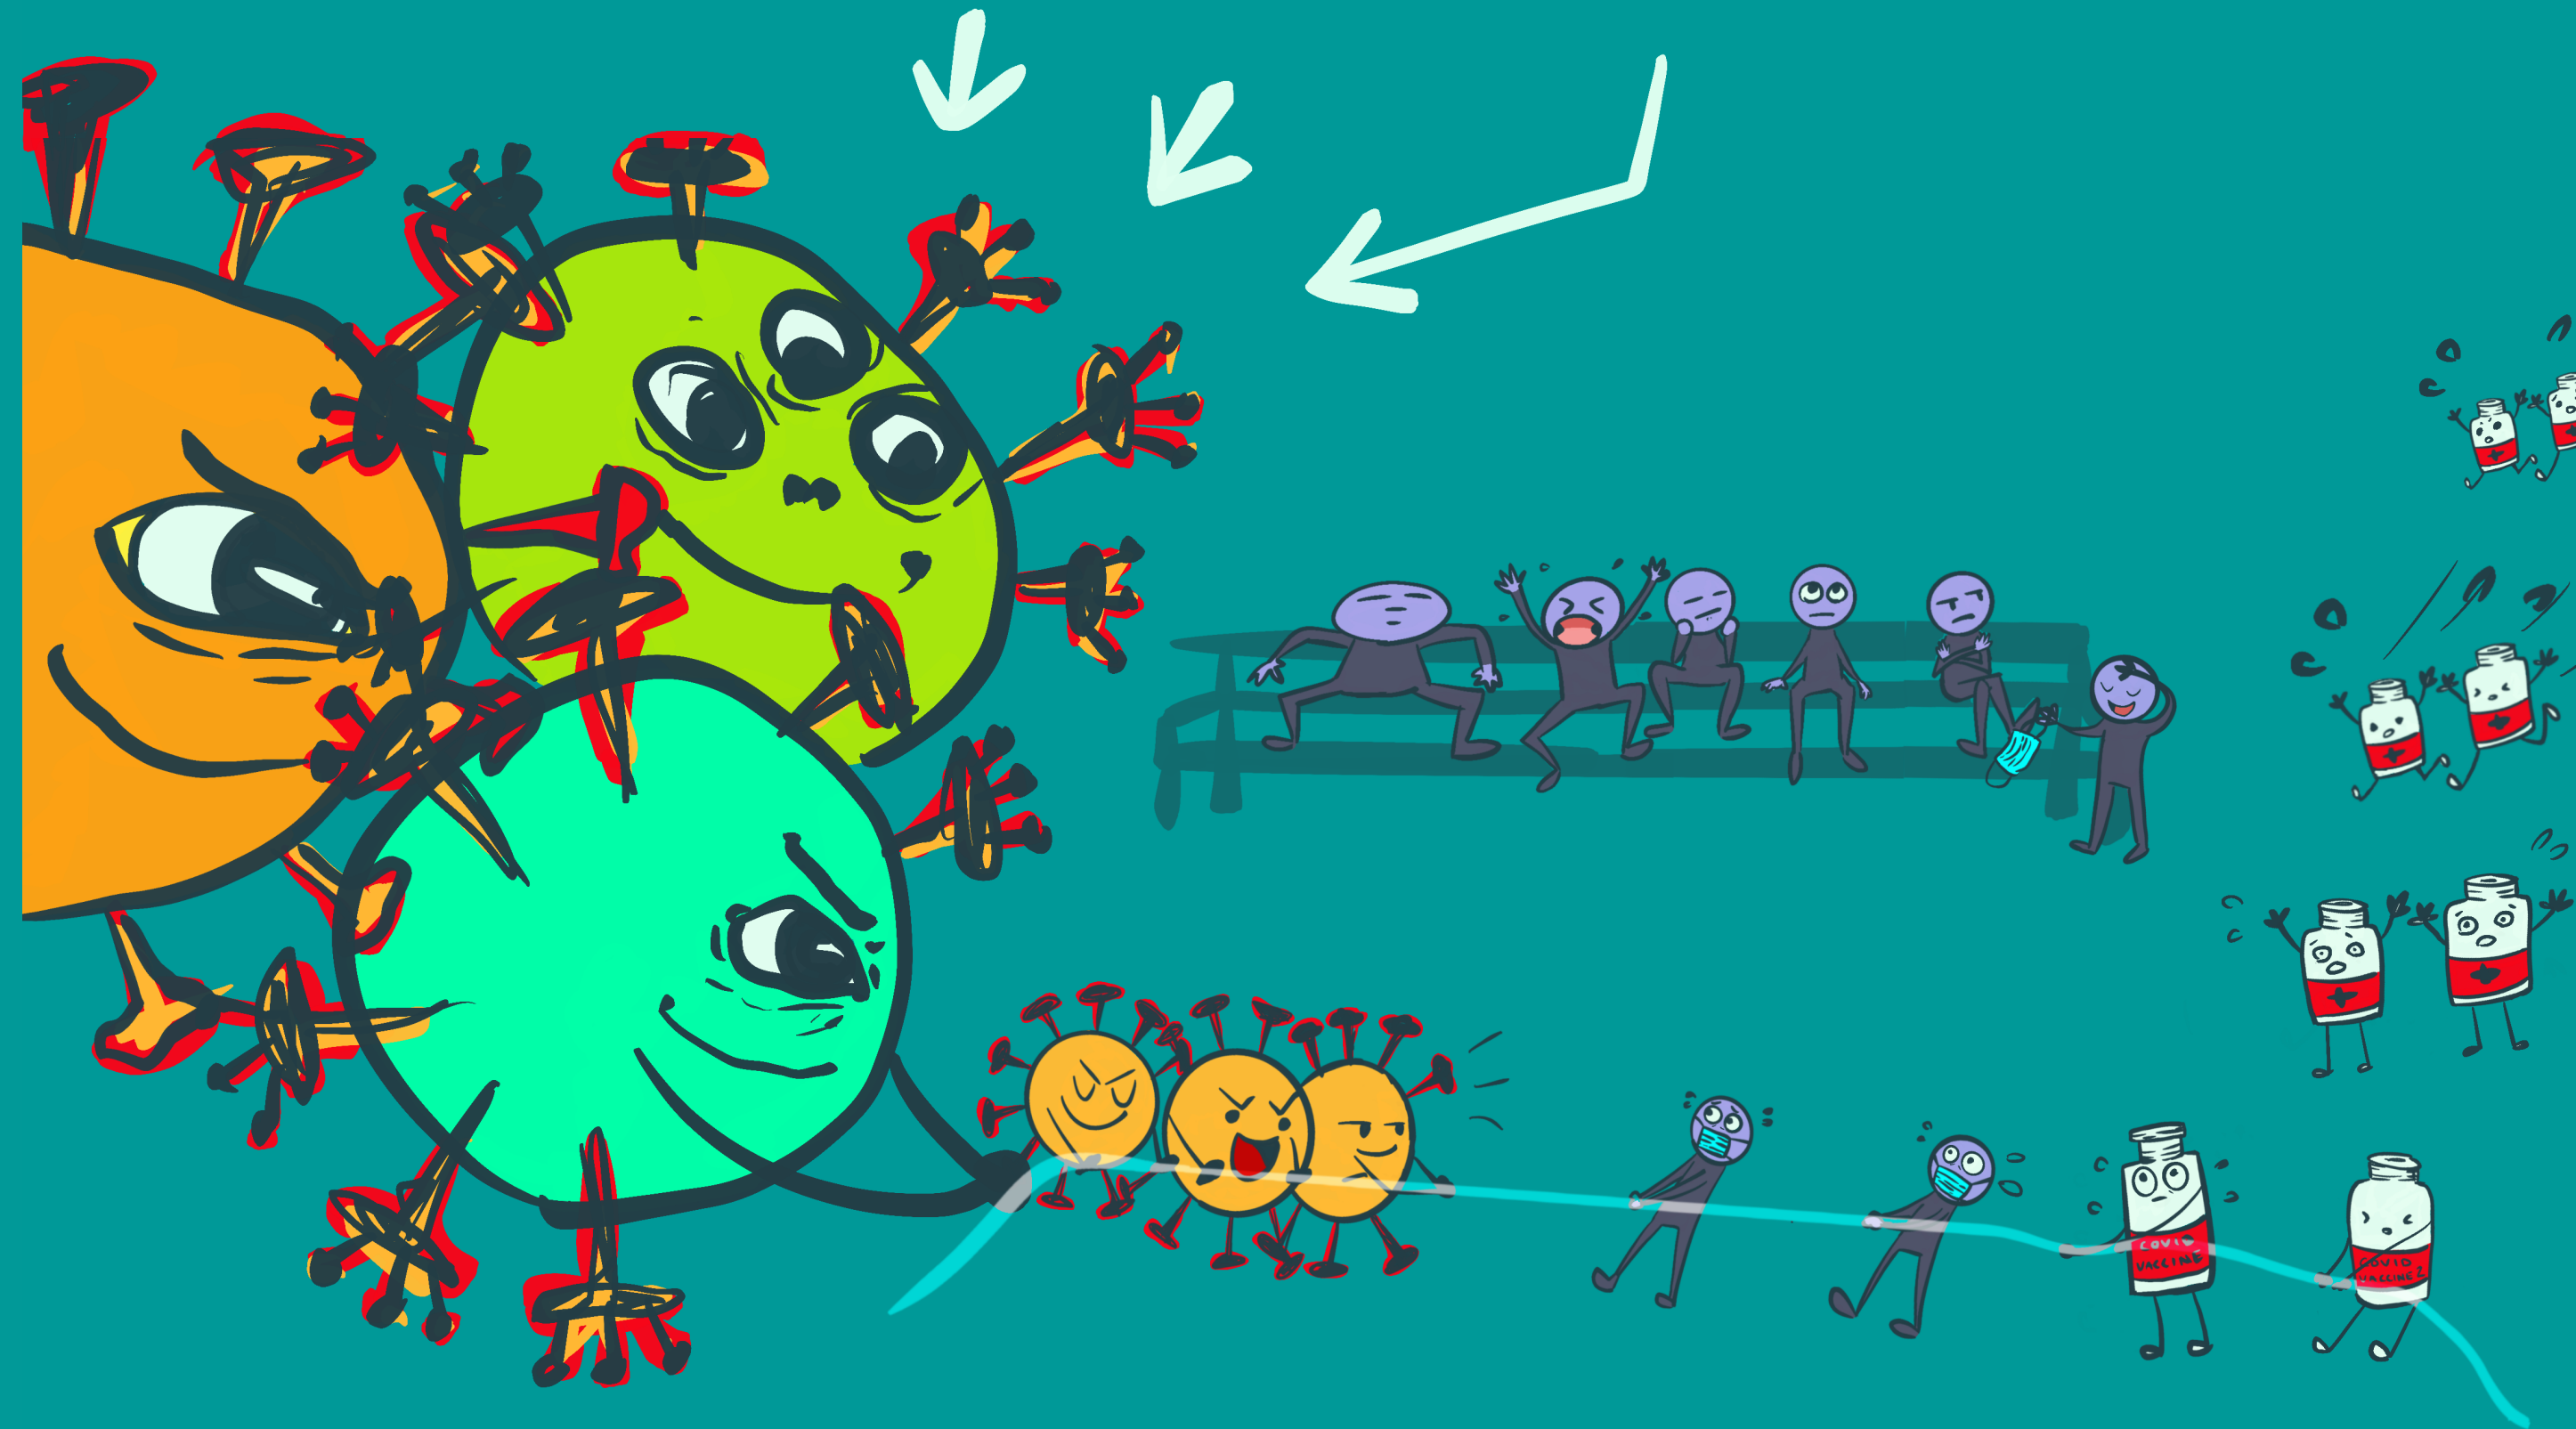

WE'RE STILL WEARING OUR MASKS AND STICKING
TO OUR HOUSEHOLD BUBBLES WHILE WE WAIT
FOR IT TO BE OUR TURN TO GET VACCINATED.

...CAME THE SARS-CoV-2 VARIANTS...

THE UK B.1.1.7 VARIANT,
THE SOUTH AFRICA B.1.351 VARIANT,
AND THE BRAZIL P.1 VARIANT —

SOME VARIANTS ARE MORE TRANSMISSIBLE,
SOME ARE MORE VIRULENT, AND SOME CAN EVADE
OUR NATURAL IMMUNE RESPONSES.
THESE GUYS ARE REALLY SCARY.

IT'S NOT YET TIME TO LET
OUR GUARD DOWN.

DON'T LET COVID WIN.
WE'VE GOT TO PULL JUST A LITTLE BIT LONGER.
WE'RE ALMOST THERE!

WE'LL HAVE ENOUGH VACCINE FOR
EVERY ADULT WHO WANTS TO BE
VACCINATED BY THIS SUMMER.

AND THEN, WE CAN TAKE A DEEP
BREATH, AND GET BACK TO LIFE!

THANK YOU FOR READING!!
